

## Report of the CSTM Membership Secretary, 2006

James Prescott

Figures in this report are as of 2006 October 19. Members who have not paid up beyond the third quarter of 2005 have now been deleted. See Table 1.

Since the last report (October 2005) there have been 20 new individual memberships added. With deletions, there has been a net change of minus 13. See Table 2. There were 0 new institutional memberships added which, with deletions, gives a net change of minus 5. See Table 3. The overall net change is minus 18. Note that this represents nearly 10% of the paying members.

This year continues the downward trend in membership of last year, and indeed of the last 19 years.

This report also contains a summary of members with their post-secondary affiliation. See Table 4.

The long term membership trend is shown in Table 5 and the associated graph.

The figures in this report are comparable to last year's figures, but slightly high when compared to prior years. Memberships only paid to the end of 2005 have not yet been deleted, and while many of these will renew, there will be deletions.

After 21 years, this has been my last year as Membership Secretary. I will be handing over to a successor as soon as practicable after the AGM.
